

City of Roseville Employees' Retirement System

Summary Annual Report

June 30, 2018

Dear Member:

The following is a summary of your Retirement System. Each year, an actuarial valuation is prepared to compare assets to liabilities. Assets are held and invested in a trust separate from other City assets. The only disbursements from this trust are to members who are retired or disabled, beneficiaries of members, members who receive contribution refunds, and for Retirement System expenses.

As Retirement Board Members, our tasks include making sure trust assets are invested prudently, required City and member contributions are received and that benefits are paid in accordance with the Retirement System's provisions.

Various professionals are hired to help in the administration of the System. They are listed in the column to the right.

The City is funding Retirement System benefits as they accrue in accordance with a sound level percent of payroll funding objective.

Respectfully submitted,

Board of Trustees
City of Roseville Employees Retirement System

Valuation Assets	138,192,403
Actuarial Accrued Liability	190,828,284

Please note for purposes of the City's financial statements and the GASB requirements, the City's GASB 67/68 report will show a different funded ratio. The GASB report requires the newest mortality table be used and a different market value and thus reflects a different funded ratio from what is stated in the annual valuation.
